IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement: UL 61010-1 and CSA C22.2 No. 61010-1 3rd edition was issued in 2012. Previously Intertek was following the continuing certification program, not requiring certification to the 3rd edition if products remained unchanged. Intertek is withdrawing this continuing certification and is now requiring all reports currently certified to any of the superseded standards listed above need to be evaluated and certified to UL 61010-1 and/or CSA C22.2 No. 61010-1 as applicable prior to the effective date.

In addition to UL 61010-1 and CSA C22.2 No. 61010-1, there are several Part 2 standards for specific product types that may be applicable to your product. If applicable, certification to these Part 2 standards is also required.

At the issuance of this SUN, the latest revision of UL 61010-1 is November 15, 2024, and CSA C22.2 No. 61010-1 Update 4. However, there may be additional revisions in the future that will require certification to.

UL 61010 and CSA C22.2 No. 61010-1 contain Functional Safety requirements.

Note: If the listing references a Canadian standard, per the Canadian Electrical Code (CSA C22.2#0) Section titled Language of markings, Caution and Warning Markings shall be in English and French.

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.
